BCHMR (Tom)

Tom gave a detailed report on the outcome of the BCHMR. The major piece of news is that we could be as much as seven thousand dollars in the black. (Dennis noted that we are \$3500 in the black as of today.) There were 55 vintage cars, about half of which were local. We were within \$2000 of budget on expenses and, while expenses were cut significantly from last year, we didn't have to "cut out all the frills." On the revenue front, the gate was a bit disappointing.

Al Reid called for a round of applause for Tom and the BCHMR committee.

A discussion followed regarding the date for 2013.
